

FOLDING VARIABLE MESSAGE SIGN

Unpack

Mount

Inform

Communicate with the public quickly and easily, you need the patent pending instALERT® Rapid Messenger. You'll be safer and more effective because you will use it more often than other message signs. You can even program it from the safety and comfort of your vehicle using the optional wireless Bluetooth® PDA.

Rapid: The instALERT can be unfolded from the back of a vehicle and deployed by one person in under a minute. The sign will alert and redirect traffic, freeing trained staff to concentrate their efforts on the incident.

Clear: Don't keep the public guessing with flashing lights. Tell them exactly what you want them to do. Three text sizes allow you to design the message for the appropriate viewing speed and distance.

Easy: Message design is powerful but simple. Create, store or select multi-screen, multi-size messages using a PC, wireless PDA or on-display scroll buttons. Full matrix display can show text or graphics on multiple screens with variable display times for each screen.

Mobile Messenger™

Consider the Mobile Messenger for greater visibility for larger roads or more long-term situations. This display uses the same technology and message software as the instALERT, but is a fixed sign intended to be permanently mounted on a trailer.

- ◆ **Incident Management**
- ◆ **DUI Checkpoints**
- ◆ **Work Zones**
- ◆ **Events**

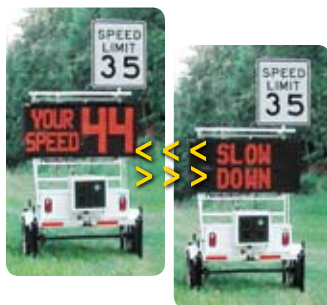

Park where you need to.

Our patent pending hitch mount fits both 1.25" and 2" receivers. This mounting system will deliver level, legible messages regardless of where you need to park, due to its 3-axis adjustments (swivel ±90°, tilt ±5°, level ±15°). Of course, you can still choose to use our pole, post or trailer mounts at any time.

Specifications and Options:

The patent pending **instALERT Rapid Messenger** is your best messaging choice when quick response, easy deployment and compact storage are critical. Includes display, 15 ft. cigarette plug power cord and softcase carrying bag.

Options	Specifications		
PDA	Includes integrated Bluetooth and messaging software.	#4000250	
Uplink Module	Includes modem. Allows remote management.	#4000314	#4000357
Powercase	12VDC supply includes 17 Ah battery, 120VAC automatic charger and inverter. Rechargeable from 120 VAC or 12VDC.	#4000256	N/A
Non-glare Lexan shield	Specially treated shield avoids reflective glare.	#4100217	#4100218
Extended Warranty	Additional one year warranty on display components. Excludes batteries.	#4000265	#4000358
Mounts	Specifications		
Portable Post (small)	Legs unfold to 79" x 35" footprint. Provides 30"-45" to bottom of display, 25 lbs.	#4000248	N/A
Portable Post (large)	Legs unfold to 125" x 57" footprint. Provides 40"-52" to bottom of display, 50 lbs.	#4000273	N/A
Hitch Mount (standard)	Fits 1.25" and 2" receivers. 25"-40" to bottom of display plus height of receiver, 18 lbs.	#4000247	N/A
Hitch Mount (telescoping)	Fits 1.25" and 2" receivers. Up to 53"-68" to bottom of display plus height of receiver, 25 lbs.	#4000289	N/A
ATS Trailer (prepped for instALERT)	Includes instALERT brackets, (4) 235 Ah batteries, 120VAC charger, 4-pin wiring plug, speed limit sign with digits, 12" tires, 2000 lb leaf spring axle. 5' to bottom of sign, 610 lbs.	#4000261 (white) #4000262 (orange)	N/A
ATS-7 Trailer (prepped for Mobile Messenger)	Includes (8) 235 Ah batteries, 120VAC charger, 4-pin wiring plug, 14" tires, 2000lb torsion axle. 7' to bottom of sign, 1600 lbs.	N/A	#4000359 (orange)

speedALERT™: Speed Dependent Messaging

Make the most of our family of products, by combining an instALERT or Mobile Messenger with our SPEEDsentry® to display messages that vary depending on vehicle speeds. This patent pending option allows you to speak directly to specific drivers.

*Requires a SPEEDsentry or SPEEDsentry Monitor.

instALERT Specs:

- Product #4000159
- Dimensions, open: 60" x 28" x 1.6"
- Dimensions, closed: 30" x 28" x 3.25"
- Weight: 43 lbs
- (1) message line: (4) 24" char.
- (2) message lines: (8) 10" char.
- (3) message lines: (12) 7" char.
- Up to (3) screens per message
- Up to 6 amp draw at 12VDC
- 2592 pixels (200 per sq ft)

Mobile Messenger Specs:

- Product #4000354
- Dimensions: 72" x 48" x 3"
- (1) message line: (4) 35" char.
- (2) message lines: (8) 18" char.
- (3) message lines: (12) 10" char.
- (2) additional font sizes available
- Up to (6) screens per message
- Up to 9 amp draw at 12VDC
- 5184 pixels (200 per sq ft)

Common Specifications:

- MUTCD compliant
- Auto-dimming 30° LED's with Black Background
- Temperature rated to -20° F to 160° F
- Black powder coat with fluorescent yellow handling features
- Unlimited messages in PDA or PC
- Full matrix, graphics capable
- Program via Wireless Bluetooth or PC/Laptop with serial cable, or using scroll buttons on display
- Supply voltage 10-30 VDC

All messaging displays are compatible with our WebEmpowered® service for the ultimate ease of use. Manage all sign operations and schedule message changes.
